

HYGIENE QUEEN

WASH!

CLEANY GENIE

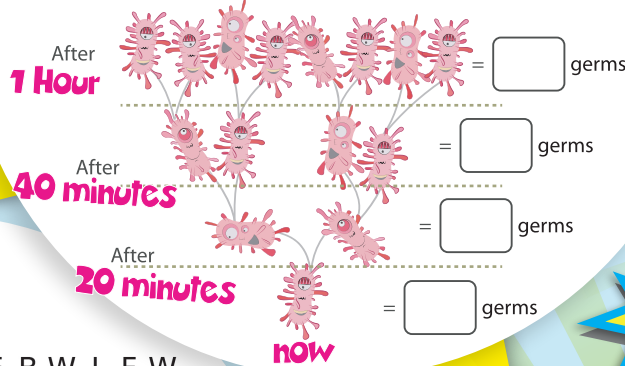

POP

SOAPER STARS!

MEET THE

Germs make copies of themselves very quickly. That's why it's important to clean them away regularly, so they don't have time to spread. **When germs make copies of themselves, they double every time.** So 1 germ makes a copy of itself... to become 2 germs and those 2 become 4 and so on! See how quickly these germs are adding up. When you've put in all your answers wipe out the germs with a big ✓!

SAVE THE DAY!

Where will the Soaper Stars appear next? At home? At the park? At your best friend's house? Write the next chapter of the Soaper Stars' adventures! What will the Team do next to wipe out germs and save the day? **Share your stories** @germsjourney #wearesoaperstars

GEL BOY

CLEAN!

Now you know **why** you clean your hands, and you know **how** to clean your hands, you are part of the team! Design your own costume and give yourself a super Soaper Star name!

SUDLEY

WASH!

Sudley has dropped his book and some of the words have fallen out in a jumble! Can you help him find them among the letters?

M A L D B E W V K E B W J F W
 A J G M W I P E S G H S A A A
 L J Z M N V L W Y E O O J V T
 Z L Y U V S T Y R L C A L A E

Take a photo and share your design on social media @germsjourney #wearesoaperstars*

Germ Count Puzzle:
 Now = 1 germ
 After 20 minutes = 2 germs
 After 40 minutes = 4 germs
 After 1 hour = 8 germs
